

February 2009

TO OUR VALUED CUSTOMERS:

We're pleased to announce that 15 Tork® towel, tissue, and napkin products have been awarded Green Seal™ certification!

Green Seal is widely recognized throughout North America as an independent non-profit organization dedicated to safeguarding the environment and transforming the marketplace by promoting the manufacture, purchase, and use of environmentally responsible products and services.

The 15 Tork towel, tissue, and napkin products were granted certification according to the Green Seal Environmental Standards for Tissue Paper (GS-1) and Paper Towels and Paper Napkins (GS-9). These 15 products are dual certified by both Green Seal and EcoLogo<sup>CM</sup>. Tork offers a total of 85 products that are EcoLogo certified, making Tork the largest North American Away-From-Home brand to carry the certification marks of both leading eco-certification programs.

The addition of Green Seal certified products emphasizes SCA's holistic approach to sustainability.

- In 2007, SCA earned the designation by *The Independent* and EIRIS as the greenest tissue company in the world.
- All internally made paper used to make Tork products is 100% recycled and process-chlorine free.
- SCA uses 750,000 tons of recycled fiber each year, of which over 400,000 tons is post-consumer waste.
- Tork offers innovative systems like Tork Xpressnap and Tork Matic that reduce consumption and waste.

The complete list of Green Seal certified products is detailed on the following page. We will be rolling out the new products over the next several weeks. All products will be available and in inventory by April 15. Packaging graphics will be implemented as a rolling change.

If you have any questions, please do not hesitate to contact your SCA Sales Representative.

Sincerely,

Joe Russo
